

Leather Punching Machine (SE-CK155)

Summary

Sheetal Enterprises mechanically leather punching machines (Leatthe Perforating Machine) is called leather punching machines (leather holes punching machines) for short, mechanically leather punching machine is mechanically punching, which uses bent axle revolving to achieve loop movement, and punching the holes on leather, cloth, paper, foam, thin metal, PVC and other thin films.

SHEETAL ENTERPRISES

LL-2, Avani Plaza, Near Satellite Towers, Opp H.P. Petrol Pump,
Satellite, Ahmedabad - 380015. Gujarat, India.

Technical Data

Model	SE- CK155
Voltage	380V 50-60HZ
Height of moulds	25mm
Ram pressure	120ton
Air pressure	6kg/cm2
Weight	8500KG
Productivity	2—8m/min
Rated power	18KW
Machine size	3220*1950*2000 mm
Paper shelf size	2400*300*850mm
Feeding shelf size	1950*1850*1450mm
Electricity box size	850*500*1250mm
Rewinding shelf size	2350*1850*1150mm
Power of main motor	11KW
Power of rewinding electrical machine	750W*5(pcs)
Paper shelf cylinder diameter	80mm

Functions and Features

- The leather punching machine applies advanced numerically controlled technology, electrical technology and software technology.
- Numerically controlled technology is the core of advanced manufacturing technology, and develops towards high-speed, high-precision, multi-function, intelligentize, systematization and high reliability.
- For electrical technology of punching machine, leather punching machine applies high-speed SOC single chip, and achieves real-time control.
- For software technology, leather punching machine applies Man-machine interface, simple operating and reliable running.
- Mechanical Features of leather punching machine (Leather Perforating Machine):
- Drawing-back treatment of punching machine
- The spindle of punching machine applies 10m big lathe, and host machine is formed by planer type milling machine.
- Leather punching machine is 8.5ton, and that can effectively assure the stability of machine.
- Rewinding of leather punching machine applies magnetic powder separation and reunion that assures the accuracy and tidiness of rewinding.
- The pillow of leather punching machine applies copper bush structure of high-speed punching, that assures accuracy, high-resistance, and lubrication.
- Leather punching machine applies recycling cooling oil to sure lubrication, bring down the temperature.
